Re: Your 11.3.05 letter, Limelight Green Quarry (S/003/012)

Greetings,

I am disappointed that you were unable to accept my offer of an onsite review of our operations, and also comment on the non compliance of other Utah operators that I documented in my October 22, 2005 letter. The rampant non compliance situation that is prevalent with almost all of the other stone quarry operations in Utah creates a very uneven economic playing field with up front and professional operators like ourselves.

I am reluctantly paying your assessment, which I feel is unfair. I can only hope that someday you will be able to visit our operations and realize that it is dedicated companies like Northern Stone Supply who are that economic and moral engines of a true democratic society, which I feel is on a down hill trend at this time.

Sincerely,

Gary Mullard
President

Lw
